REASONS FOR ALLOWANCE

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of records fails to disclose or render an obviousness of an oversampling FIR filter for filtering with a clock having a frequency higher than a frequency of accepting input data comprising: a shift register for accepting input data; a plurality of selectors for selecting a predetermined number of individual tap factors sequentially in synchronization with the clock; a plurality of multipliers; and an adder; wherein one of the selector capable of changing its respective predetermined number of individual tap factors to be selected and at least one other of selectors also capable of changing its respective predetermined number of individual tap factors, such changes being made in accordance with a change in the number of oversamples as seen in independent claims 1, 5, and 9-10.

The closest found prior art is Fujita et al. (E.P. 0,336,669). Fujita et al. disclose an oversampling FIR filter for filtering with a clock having a frequency higher than a frequency of accepting input data comprising: a shift register for accepting input data; a plurality of selectors for selecting a predetermined number of individual tap factors sequentially in synchronization with the clock; a plurality of multipliers; and an adder. However, Fujita et al. fail to disclose one of the selector capable of changing its

respective predetermined number of individual tap factors to be selected and at least one other of selectors also capable of changing its respective predetermined number of individual tap factors, such changes being made in accordance with a change in the number of oversamples as seen above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
